

HBK-T01 Remote Control Transmitter

Introduction

This product is a versatile remote control that can be used in many fields, such as access control system, wireless remote control of the lamps and other 433MHz external receivers.

Note: This remote control can only be compatible with the receivers sold in our store. If you use other sellers' receiver, please consult us before using.

Specifications

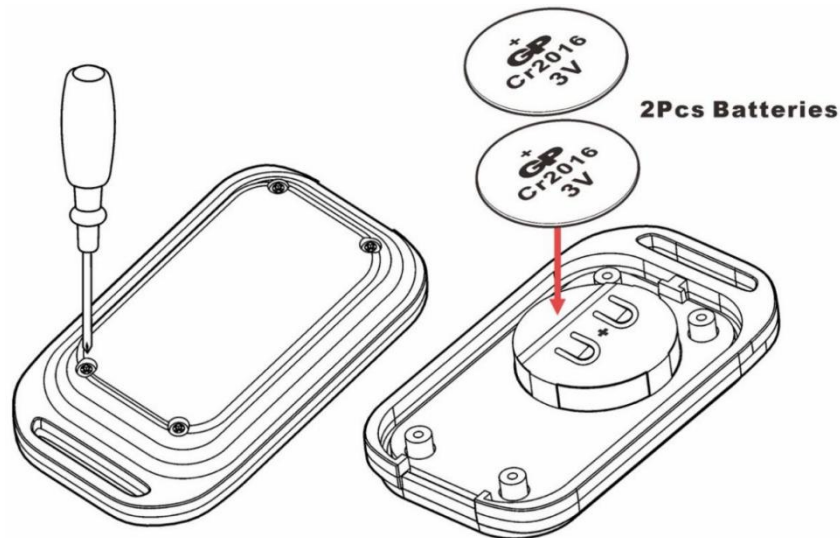

Operating Voltage	6VDC (Built-in batteries)	Operating Current	3mA
Powered By	2pcs CR2016 batteries	Operating Frequency	433.92MHz
Modulation Type	ASK	Transmit Power	15mW
Antenna Gain	3.6dbi	Number of Buttons	1
Encoding Type	Fixed code	Emission Distance	max. 50m (Open area)
Enclosure Color	Black	Remote Control Chip	PT2240-S
Enclosure Material	Plastic	Button Material	Silicone
Dimensions	57.8L x 33.3W x 12.5H (mm) / 2-9/32" x 1-5/16" x 31/64"		

Programming

The programming method of the transmitter depends on the receiver, please refer to the pairing method of the receiver.

How to Replace the Battery

To replace the battery, open the back case with a screwdriver, then insert batteries with positive (+) side up. Replace the batteries with 2pcs 3V CR2016 button batteries. Please dispose of the old batteries properly.

WARNING

To prevent possible serious injury or death:

- NEVER allow small children near batteries.
- If battery is swallowed, immediately notify doctor.
- To reduce the risk of the fire, explosion or chemical burn:
- Replace ONLY with 3V CR2016 button batteries.
- DO NOT recharge, disassemble, heat above 100°C or incinerate.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
