

SMART SENSOR

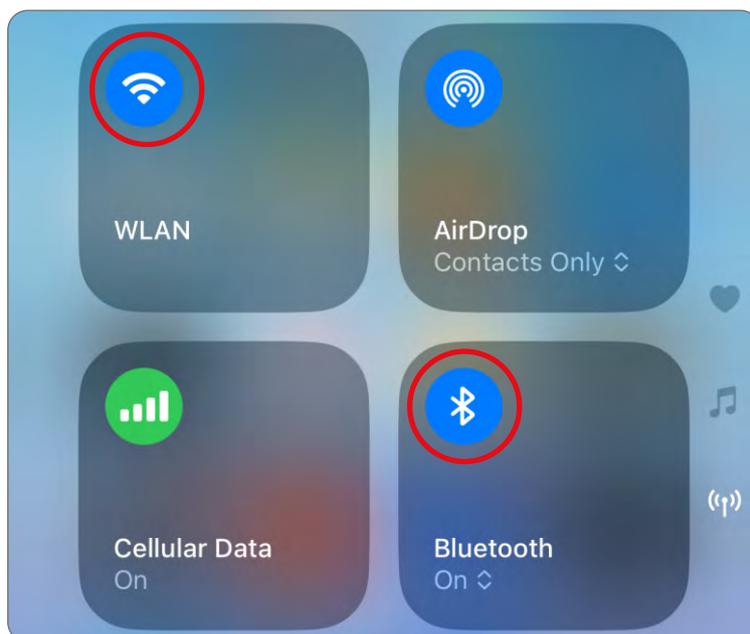

TECHNICAL PARAMETER

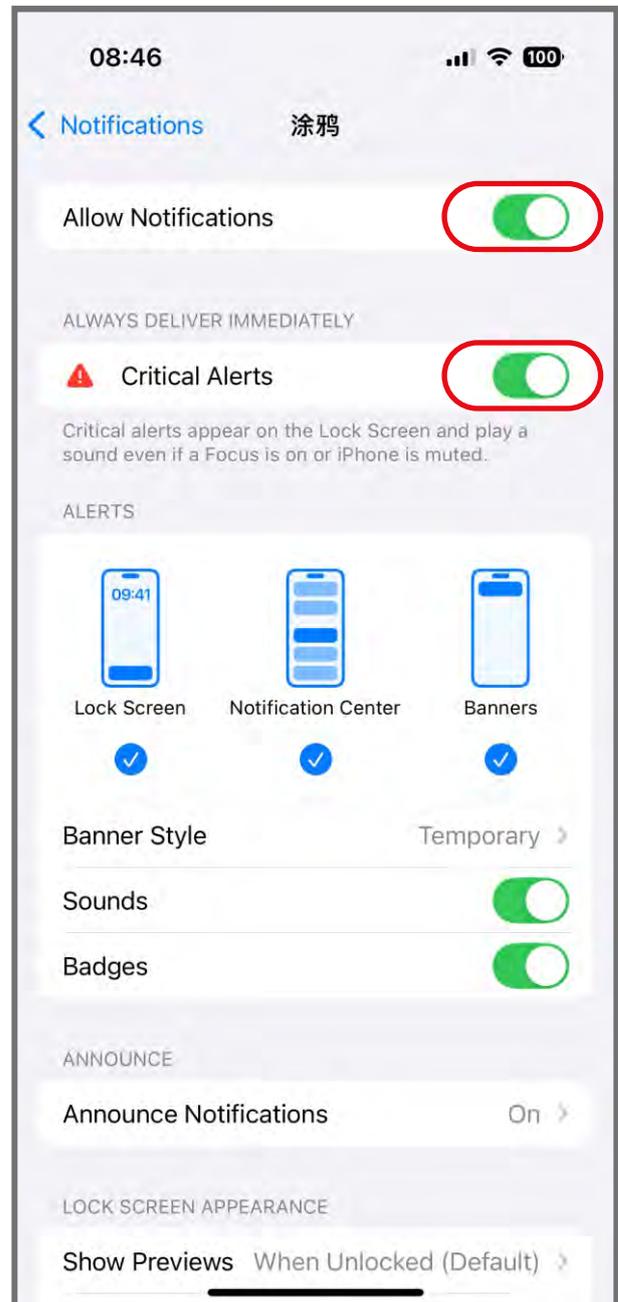

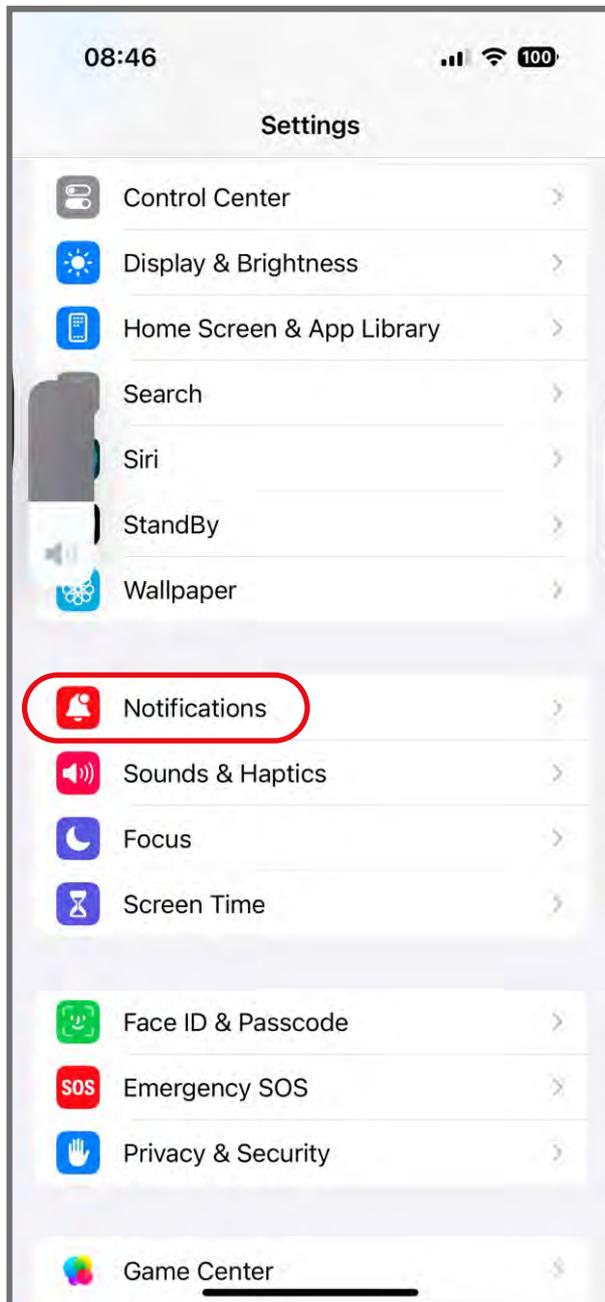

Battery Type	AAA1.5Vx2
Quiescent Current	≤10uA
Alarm Current	≤60mA
WiFi	2.4GHz IEEE 802.11b/g/n
Low-voltage Indication	≤2.4V
Installation	Wall-mounted
Working Temperature	-4°F-140°F (-20°C -60°C)
Working Humidity	95%RH
Dimensions (main body)	3-1/16"x1-1/4"x53/64"
Attention: AAA batteries are not included.	

WARM TIPS

1. Open Wi-Fi and Bluetooth on your phone before adding device to 'Tuya Smart' app.

2. Please make sure to enable the Tuya app's 'Allow Notifications' & 'Critical Alerts' in your smartphone's 'Settings'.

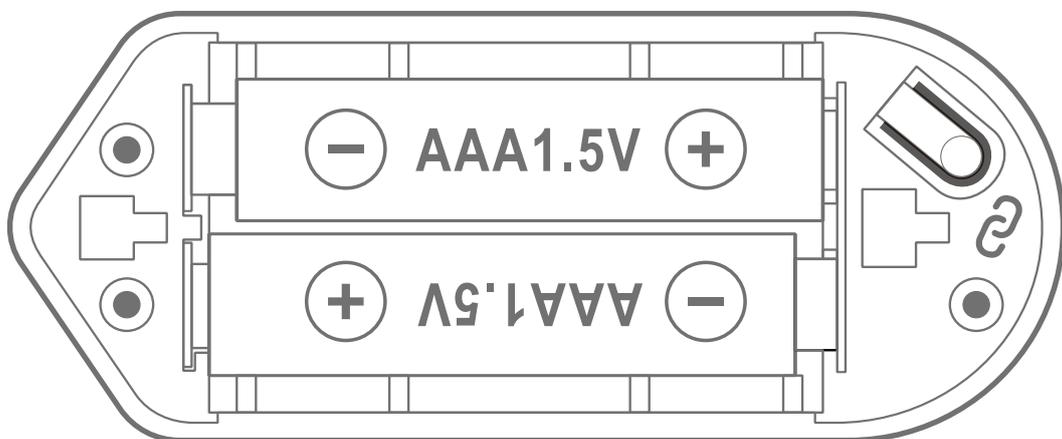

HOW TO USE

1. Push the mounting bracket downward and take out the bracket, then insert the batteries.

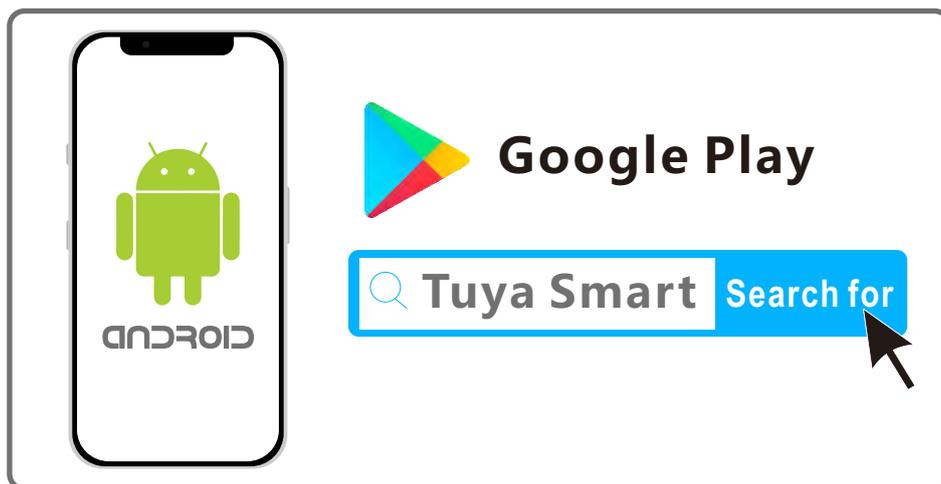

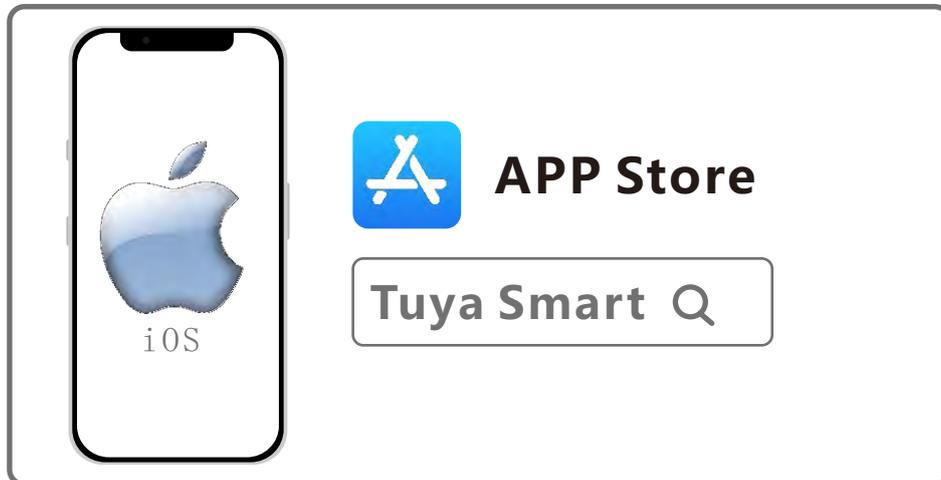

2. Put the battery into the battery bin and place it according to the graphics in the battery bin.

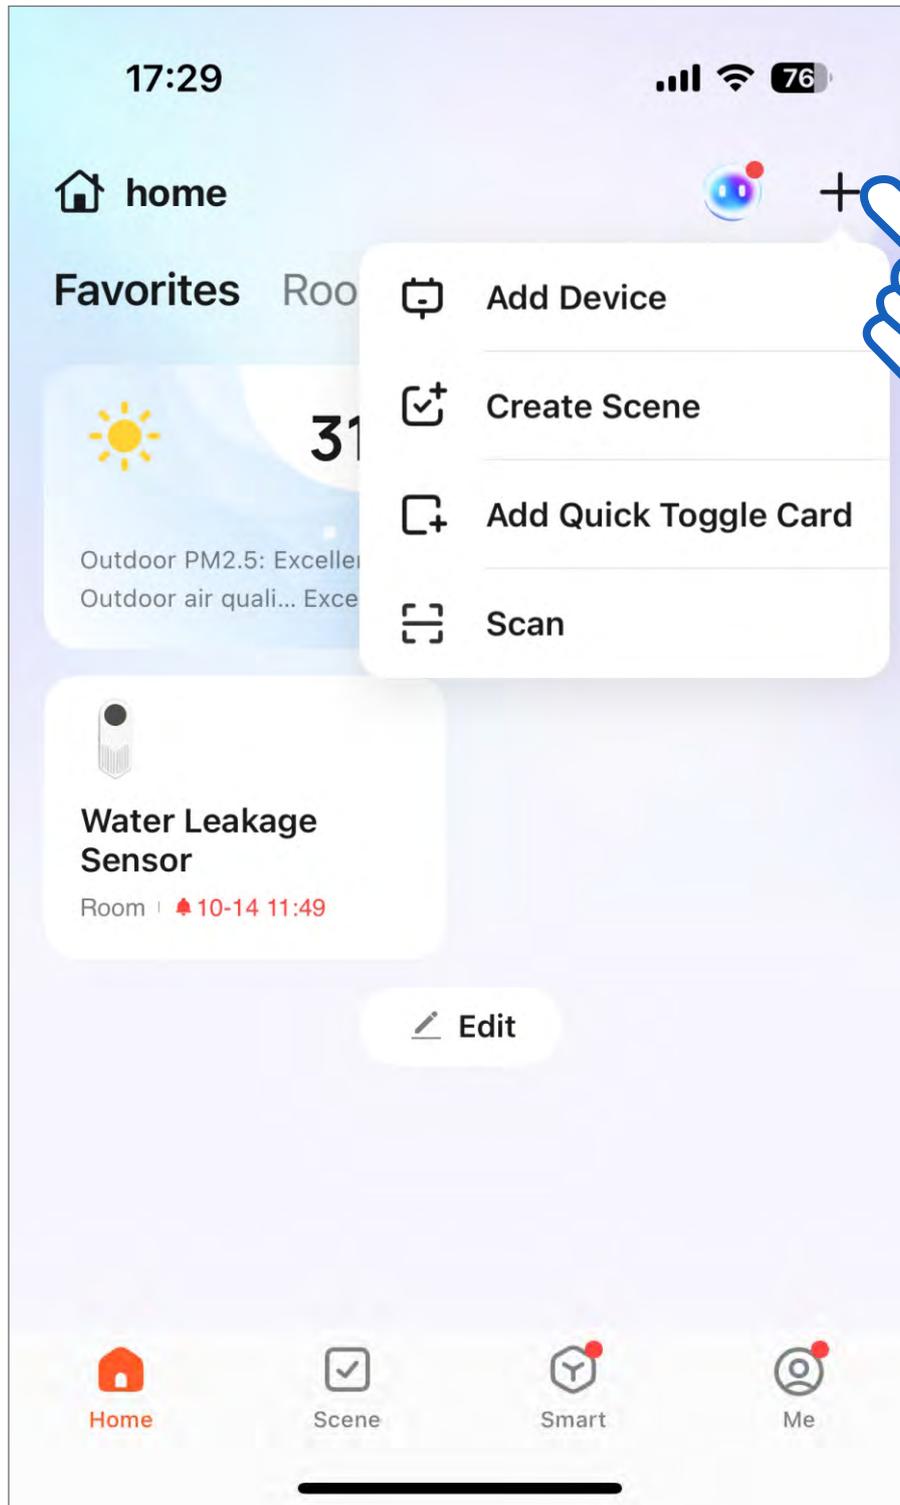

DOWNLOAD TUYA SMART APP

Search 'Tuya Smart' in App Store for iOS version or in Google Play for Android version.

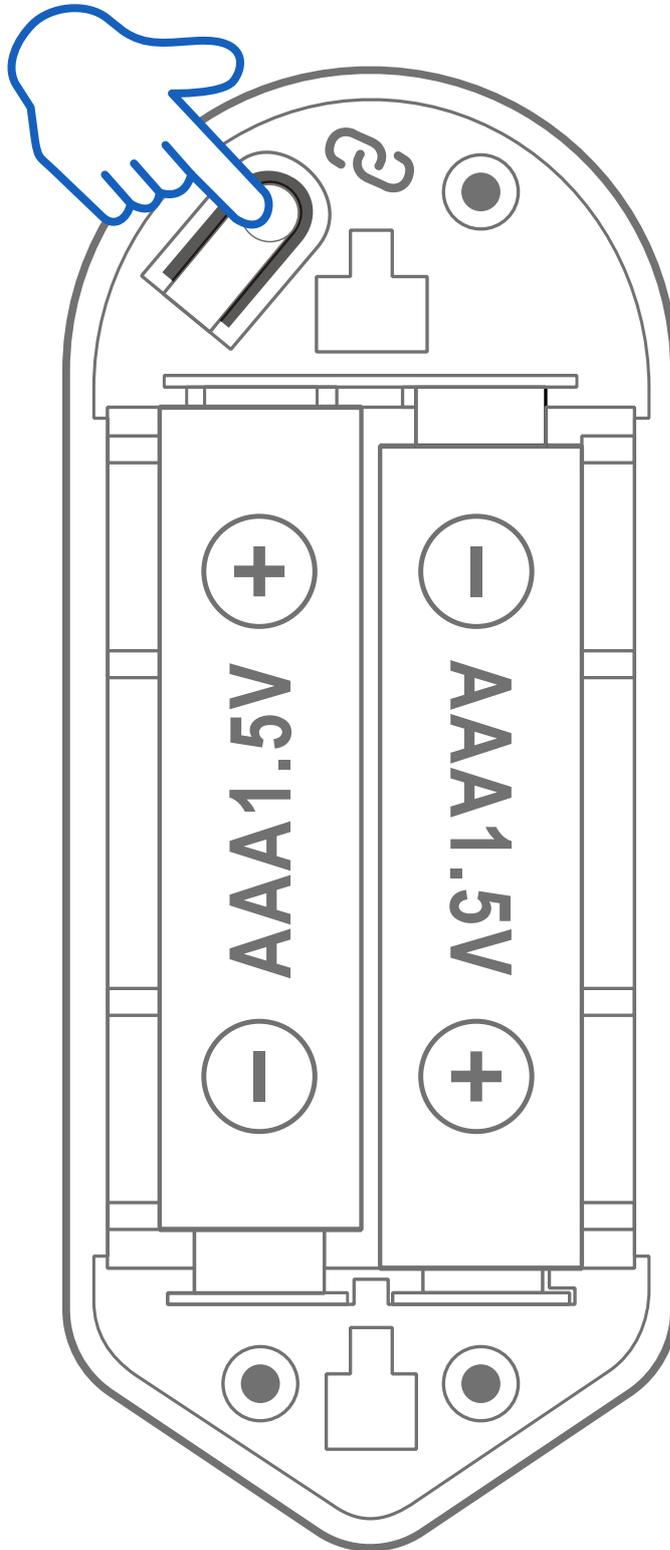

TUYA SMART APP OPERATION GUIDE

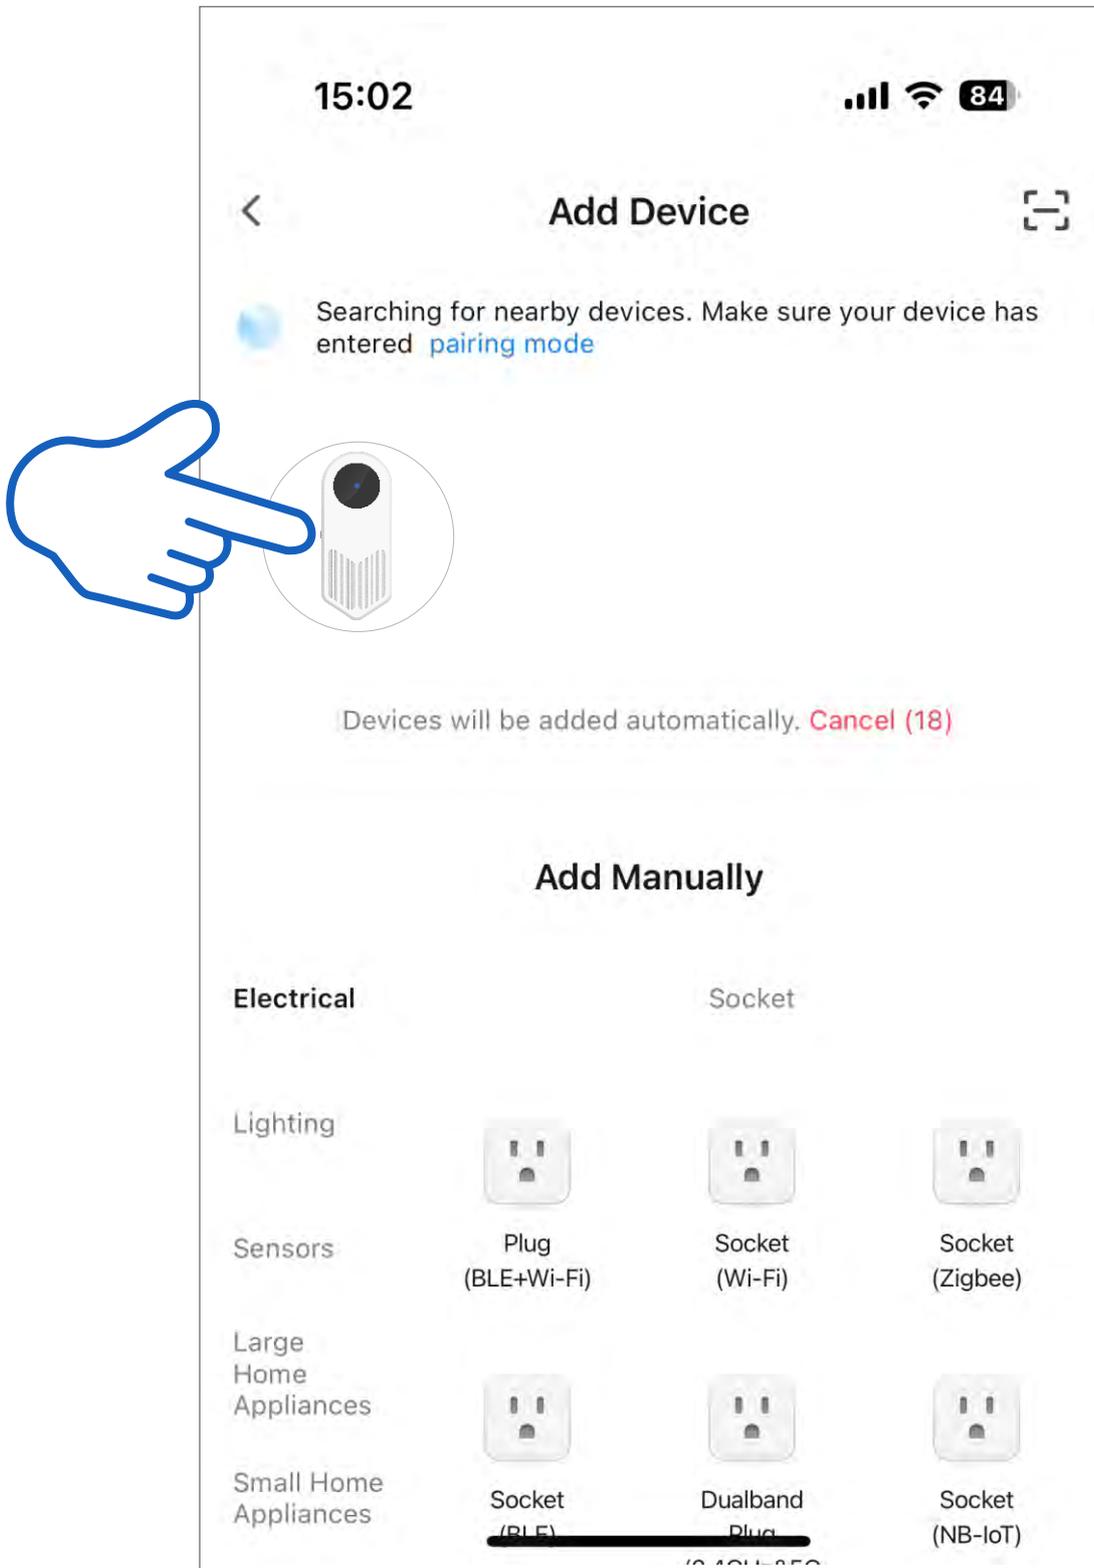

Step 1. Tap '+' in the upper right corner of the home page of Tuya Smart APP followed by tapping 'Add Device'.

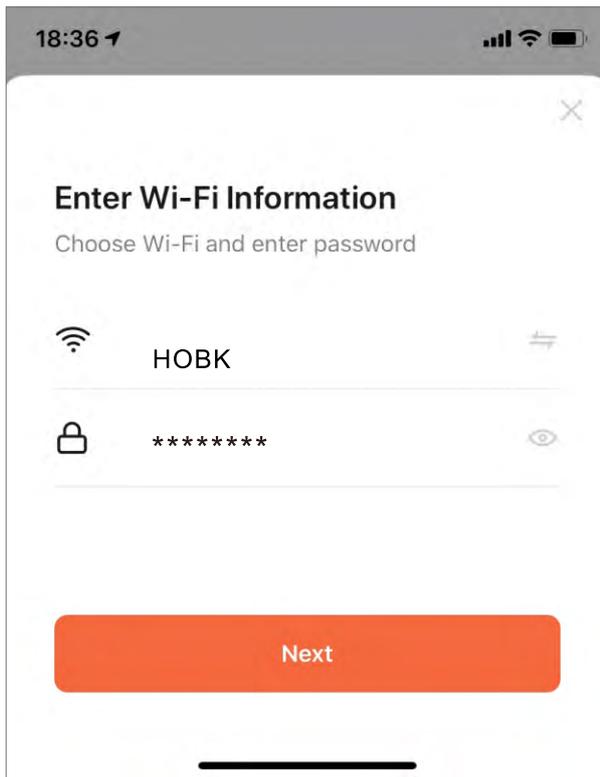

Step 2. Press and hold the  button for 8 seconds, and the LED indicator light will flash rapidly.

Step 3. When the smart sensor icon appears, tap it to enter the WiFi information.

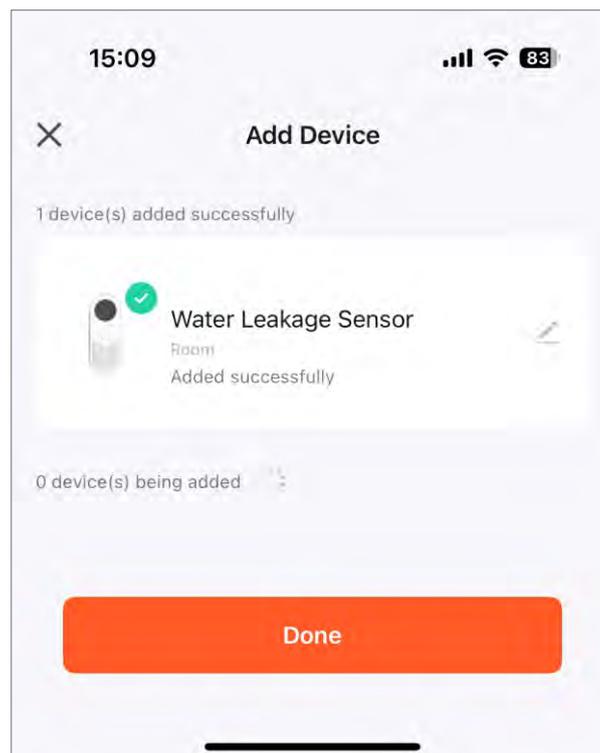

Step 4. Choose Wi-Fi and enter password.

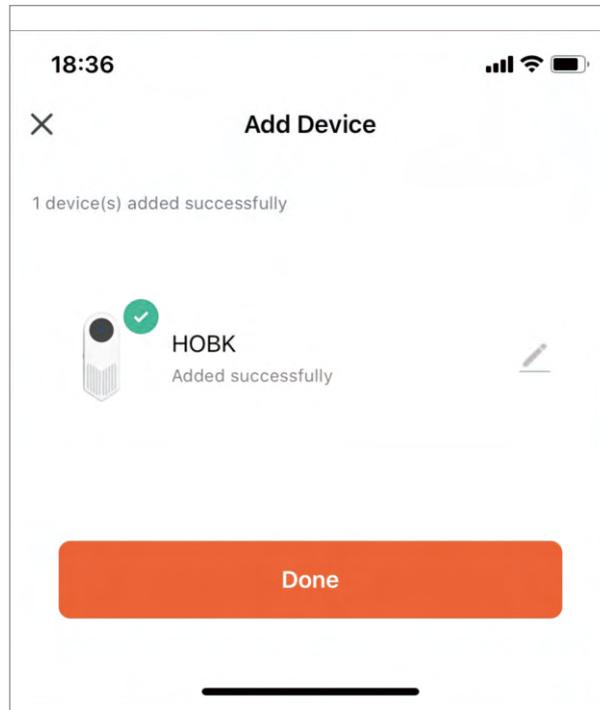

The WiFi must be the same as the one that the phone is connected to, otherwise it will cause offline problem. The Tuya Smart only supports 2.4GHz Wi-Fi communication protocol and can't support 5GHz.

Step 5. The Tuya Smart APP will search for nearby device and connect to the 'Device'.

Step 6. Name the added device.

HOW TO INSTALL
